Step in Problem-Solving Sequence	Form to Use
1. Organization Meeting	Form A and C
2. Team Planning Meeting (Appreciative Inquiry)	Forms B and C
3. Parent and Student Interviews (Appreciative Inquiry)	Forms D and E
4. Initial Coaching Session (Appreciative Inquiry)	Forms F and G
5. Five Why Coaching Session	Forms H, I and J
6. Student Support Meeting Summary	Form K
7. Student Support Team Review Summary	Form I
8. Overviews of the process	Forms P

Team: Tier 1

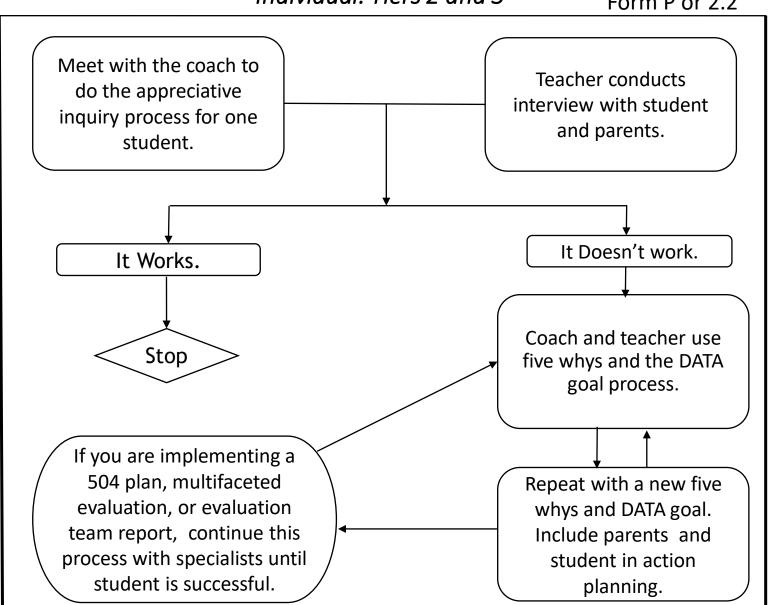

*Individual: Tiers 2 and 3* 

Form P or 2.2

Team Organization Meeting:
Identify and schedule issues for discussion.

Team Planning Session:
Use the appreciative inquiry protocol to develop an ongoing intervention database.

Student Watch list: Identify students needing the individual coaching process.

# ☐ Process Observer Checklist

## First Coaching Conversation (Appreciative Inquiry)

- ☐ Coach established and maintained a positive tone
- ☐ The coach framed the concern as a missing skill
- ☐ The coach listened to the story and paraphrased to clarify and move the conversation forward
- ☐ Coach helped the teacher(s) design an action plan by building upon stories of what has worked before
- ☐ Coach helped the teacher set the DATA goal and got a commitment of where to start immediately

#### **Look Fors for 5 whys**

- ☐ The coach kept the conversation positive and within the circle of influence
- ☐ The coach paraphrased and based questions on the last answer the teacher gave
- ☐ The coach avoided coming up with solutions until the missing skill was identified (refer to strength charts).
- ☐ Questions helped the teacher see the problem through the lens of what is going on <u>inside the student's head</u>

### **Look Fors for DATA goal**

- ☐ The "Do Differently" statement focuses on teaching the student a new skill (see strength charts)
- ☐ "Achieve" reflects the change the teacher wants to see
- ☐ The timeframe falls within 3-6 weeks
- □ "Assessed by" measures specific growth from baseline data to a new learning target by measuring small steps

#### **Action Plan**

- ☐ Activities moved the student closer to the DATA goal.
- ☐ Strategies promoted independence for the student (balance of accommodations and interventions)
- ☐ There was a balance among activities the teacher and parents will do and what the students will do for themselves
- □ Parent strategies apply to home life rather than academic homework and emphasize the skills listed in the DATA goal
